

# Hilton Reading Southside

**PROJECT:** Hilton Hotel Reading Southside, UK

**CLIENT:** Hilton International

**DESIGNER:** Seifert

**LAMPING:** 12 x Long life AR111 recessed lamps

**METAL FINISH:** Polished stainless steel

**DROPS:** Hand-made glass double lenses in amethyst, smoke and clear

**DIAMETER:** 2500 mm

**HEIGHT:** 4000 mm

A spectacular centrepiece chandelier for the vast entrance void, featuring a mixed mass of cascading glass chains to form two effervescent floating clusters of glass drops. Carefully spaced for maximum impact and to reduce the possibility of tangling, the delicate drops reflect into the highly polished stainless steel ceiling-plate to produce an illusion of infinity.

The fitting creates breathtaking impact yet also offers ease of maintenance through the chrome ceiling plate which offers simple access to the transformers. It is also energy efficient yet offers superb ambient lighting to welcome guests.
