

Sunseeker Predator 84

PROJECT: Sunseeker Predator 84

CLIENT: Sunseeker Yachts

DESIGNER: Design Unlimited

LAMPING: 1 x 10W E14 self ballasted fluorescent lamp or 1 x 14W E14 halogen lamp

METAL FINISH: Polished Chrome

SHADE: Beige

DIAMETER: 135 mm

HEIGHT: 520 mm

For the stylish Predator 84 model, Chelsom supplied special table lamps created with carbon fibre mouldings and steel. Lightweight due to their unique hollow construction, the lamp frames are contemporary matt black carbon fibre with polished chrome metalwork, teamed with unique double skin shades which feature a fine black mesh stretched over a beige inner cylinder.

For additional stability when sailing, the lamp bases were modified for fixing to the side tables.
