Chelsom

In a delightful interior scheme, designed by Fox Linton Associates, Chelsom manufactured bespoke donut pendants for the main restaurant at the Turnberry Hotel Ayrshire. Featuring penny bronze metal frames with built in cream fabric shades, the fittings are striking to look at and offer a beautiful quality of subtle diffused light. The bespoke design was so successful that it has since been developed into a family of luminaires, the Ailsa collection, comprising pendants, flush fittings, semi-flush fittings and wall brackets. Ailsa is featured within Edition 22, the latest Chelsom lighting catalogue.

Chelsom supplied architectural pendants for the bar area, featuring bronze metalwork and opal acrylic diffusers and also created a totally bespoke billiard table light which was constructed from metal with the Turnberry 'lighthouse' logo stamped out all round the perimeter of the fitting. Manufactured to the specifications of the designer, the billiard light is an iconic addition to this world renowned golf resort, part of the Starwood Luxury Collection.
